**PUBLIC NOTICE**

Doubts have been cast on the authenticity in the social media by some unscrupulous elements.

It has been said on social media by some anti-social elements that the institute has been blacklisted by the NCS, while there is nothing like it about our organization; we are active employers of the NCS. We have nothing to do with the organization being spoken about. We have filed an FIR against mischief monger and have requested to the Social Media Platforms to block relative accounts.

All anti-social elements are warned that legal action will be taken on posting false information about the institute. The information given on social media about the institute is absolutely wrong, we refute it.
